— PRESENTATION OVERVIEW

Mentor, Empower, Retain

01

Mentor

Mentoring student workers to focus on values, goals, and training opportunities

02

Empower

Empowering student workers to combine their unique skill sets with positive mindsets

03

Retain

Retaining student workers after graduation to strengthen SUU's future workforce

01

Mentor

Mentoring student workers to focus on values, goals, and training opportunities

— MENTOR • DISCUSSION

What is something you
value as a supervisor?

Value-Driven Mentorship

Focusing on values can increase your ability to mentor your student worker

Values drive →	Goals What a student values shapes the goals they will actually commit to.
Training Interests Values point to the skills a student wants to learn, and the ones they could teach.	Workplace Behavior Students show up differently when their work connects to what matters to them.
Individual Growth Values give you a way to talk about growth beyond the job description.	

— MENTOR

What does a one-on-one with a student actually look like?

01 Identify or Review Values

02 Set or Reflect on Individual Goals

03 Identify Desired Trainings
TO RECEIVE & TO GIVE

04 Rotating Discussion Questions

05 Two-Way Feedback

— MENTOR • DISCUSSION

What impactful
experiences have you had
mentoring a student?

— MENTOR

Feedback for Student Workers

Things to keep in mind

- 01** Your student worker is more stressed than you realize
- 02** Students respond well to feedback when you establish yourself as a mentor
- 03** You don't have to tackle hard situations alone

— MENTOR

Student Workers as **Mentors**

02

Empower

Empowering student workers to combine their unique skill sets with positive mindsets

— EMPOWER

Empowering Student Worker Mindsets

MINDSET 01

Balanced-Workload Mindset

Student workers can become even more productive when their workload allows them to work and develop simultaneously

MINDSET 02

Problem-Solving Mindset

Student workers can build massive efficiency gains when given the autonomy to work as problem solvers

MINDSET 03

Emerging-Professional Mindset

Student workers can bring more to their team when they are viewed as equal contributors

PROBLEM STATEMENT

“If I don't stay on top of giving my student worker a list of tasks, they just sit there.”

Balanced-Workload Mindset

50%

Reactive Workload

ASSIGNED TASKS

50%

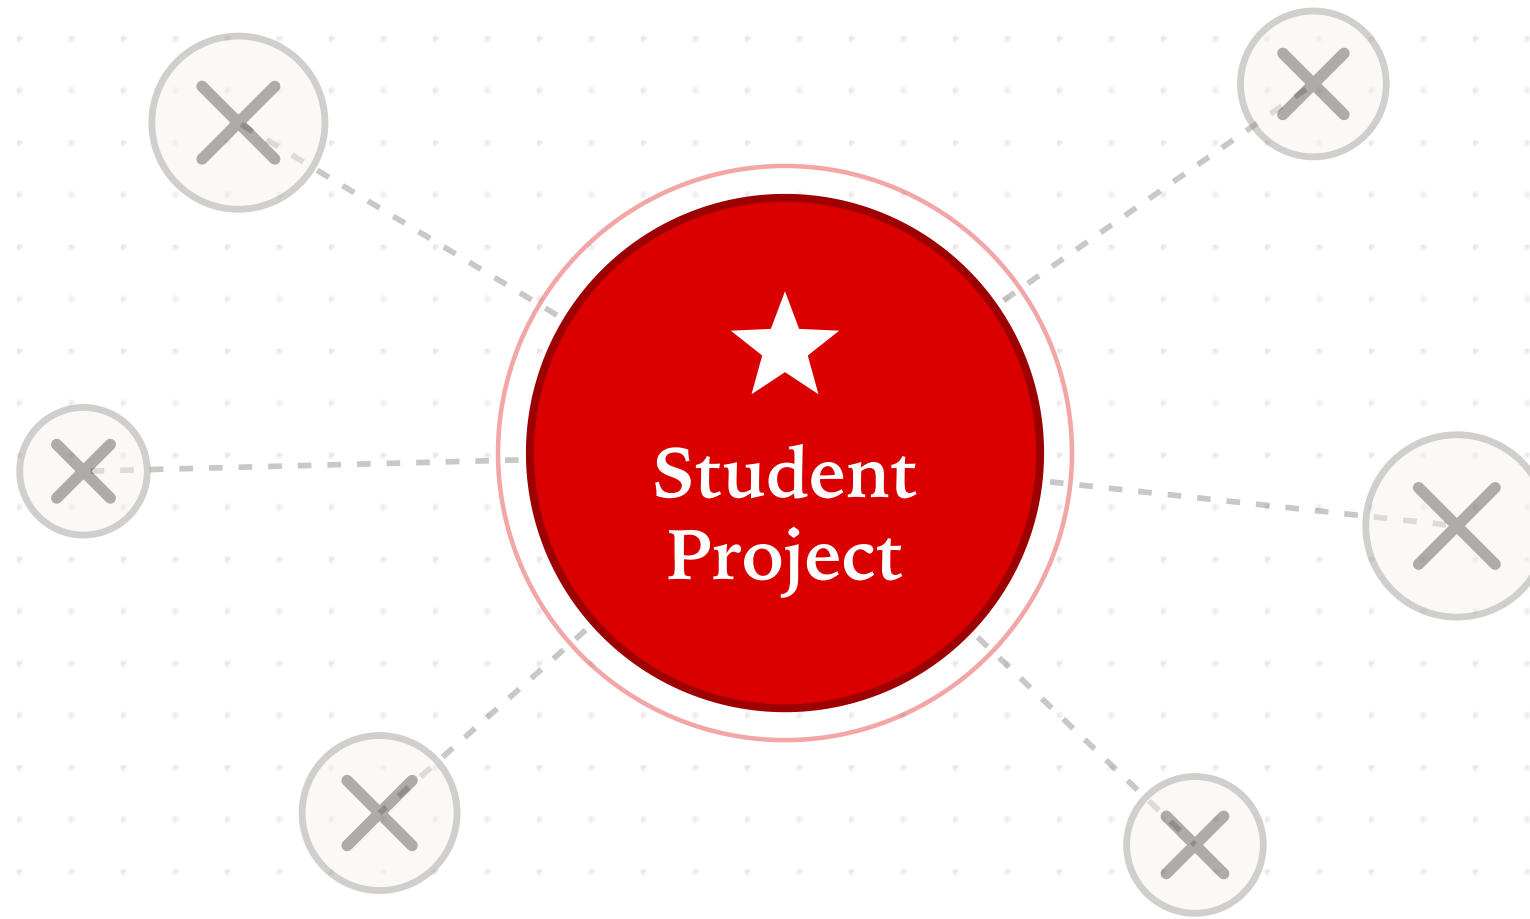

Proactive Workload

SELF-ASSIGNED TASKS

PROBLEM STATEMENT

“Half the time, I don't really even know what my student worker is working on.”

Problem-Solving Mindset

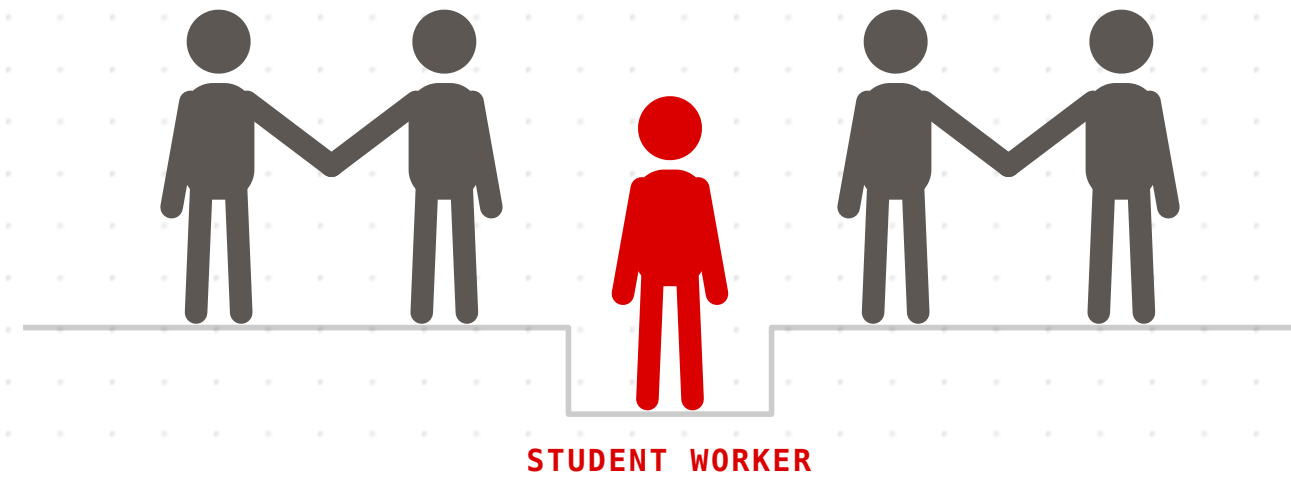

EMPOWER · MINDSET 03

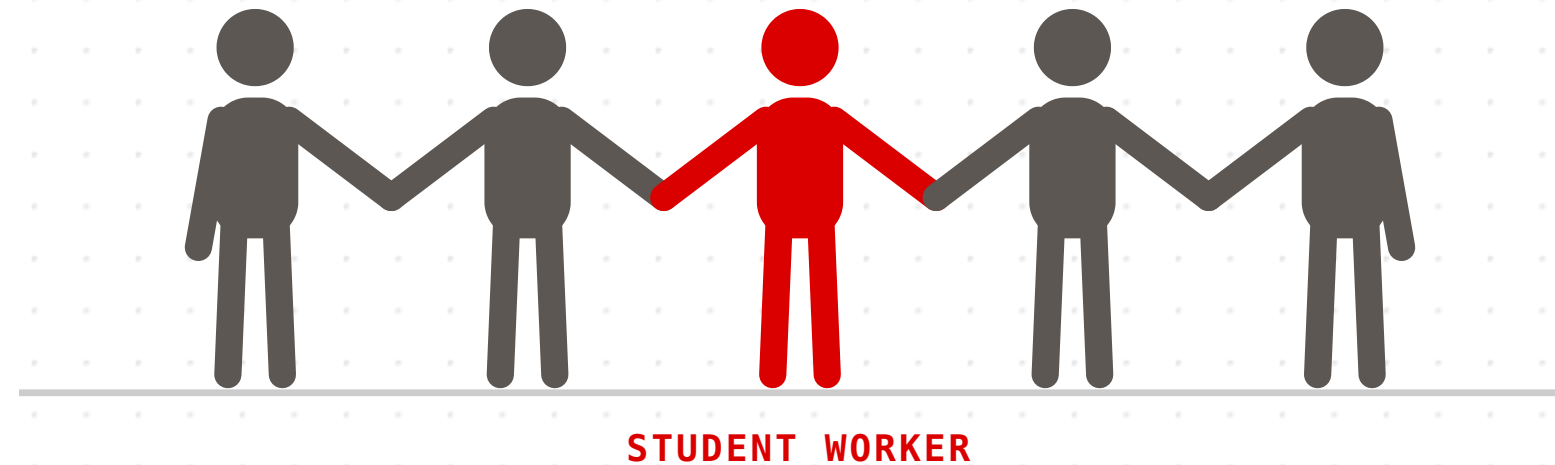

PROBLEM STATEMENT

"I have a lot on my plate, but I can't assign that out to them because they're just a student worker."

Not "Just a Student Worker" Mindset

Student potential can be **LIMITED**

Student potential can be **REALIZED**

— EMPOWER • DISCUSSION

When have you seen a
student worker **exceed**
your expectations?

— ANNUAL SUPERVISOR TRAINING

~~Building SUU's Future
with Student Workers~~

Odds are, your
student worker is
smarter than you
